Additive 5154 (Powder Defoamer)

Introduction:

Foam generation during Industrial Processes, Chemical or Physical, is complimentary, unavoidable and non-desirable phase. Foam can lower process efficiency and reliability and impair product properties. The end result is lower productivity, poorer economics and inferior product quality.

Additive 5154 is Effective Defoamer in Powder Form. It not only burst the Foams but controls re-generation of Foam. It is ideally suitable for product supplied in Powder Form.

Technical Data:

Appearance	:	White to Off-white Powder
Odour	:	Odourless
Bulk Density	:	2.7 Approx.
Flash Point	:	Not Applicable
pH of 1% Solution	:	7 ± 1
Melting Point	:	> 300°C
Solubility	:	Dispersible in water

Dose Level:

0.3 to 1.0% is sufficient to Defoam and control regeneration of Foam. However, it is suggested to determine Final Dose Level by conducting Trials at user's end.

Application:

Starch, Corrugation Industry, Detergent, Powder Putty, Leveling compounds, Screeds, Mortars, Joint Fillers, Powder paints, Construction Adhesives, Starch, Cement, Gypsum, Chemical Processing, Agro Chemicals, Pesticides, Pulp & Paper Processing and Powder Based Products tends to Foam on application.

DISCLAIMER

This product is manufactured to rigid control Specifications. It is impossible to control the use & application. Individuals receiving the information must exercise their independent judgment in determining its appropriateness for a particular purpose. Therefore, Harmony's sole liability is limited to replacing quantities of products proven to be defective. Harmony disclaims any liability for the cost of other Raw Material/s or any other use of product.
